

BPO Task Group: Modes of collaboration with ITER

(Rajesh Maingi, Mike Walker leaders) Update: 7/15/2013

- Goal: Develop a US community vision of how we would like to work with ITER and the IO, including technical specifications for critical systems in design phase
 - Anticipates future discussions among all ITER parties
- Status and plans
 - Group formed: M. Greenwald, D. Hillis, A. Hubbard, J. Hughes, S. Kaye, R. Maingi, G. McKee, D. Thomas, M. vanZeeland, M. Walker
 - Periodic conference calls to perform the work
- Target: issue full recommendations by end of 2013
 - Document on Experimentation Workflow from C-Mod, DIII-D, and NSTX supplied to ITER Organization (June 2013)
 - Document on Analysis Workflows for three different analysis tasks supplied to ITER Organization (June 2013)
 - Learning about scientific practices at LHC (ATLAS, CMS collaborations), NIF, Space Physics
